

CloudCheckr Federal

Securely govern your cloud infrastructure with a FedRAMP Ready cloud management platform

FedRAMP

FedRAMP is a government-wide compliance program that provides a standardized approach to security assessment, authorization, and monitoring for cloud services.

CloudCheckr Federal™ has achieved FedRAMP Ready status and is listed on the FedRAMP Marketplace.

With CloudCheckr Federal, agencies gain total visibility of their resource utilization, security configuration, compliance, and cloud spend—in one application. Our cloud cost management solutions, designed with IT finance teams in mind, deliver automated invoicing, billing management, chargebacks, and budget recommendations across complex organizations.

Streamlines the governance of complex cloud infrastructures

- Comprehensive visibility into cloud resources, usage, and costs
- Automated invoicing, billing, and chargebacks
- Over 600 security and compliance best practice checks, with button-click fixes

Ensures the highest standards for security and compliance

- Platform adheres to NIST 800-53; awarded FedRAMP Ready status
- Advanced high availability, reliability, and disaster recovery standards
- AI threat detection analysis
- Scanned daily for vulnerabilities

Empowers public sector customers to get results immediately

- Eases the Authority to Operate (ATO) and other agency certification processes for public sector customers
- Connects to cloud resources and begins monitoring activity in days—not weeks or months
- Automated recommendations for budget management

Feature Comparison

Refer to this feature matrix to determine which CloudCheckr cloud management platform aligns with your requirements.

Feature	CloudCheckr Platform	CloudCheckr High Security	CloudCheckr Federal
Certifications	SOC 2	SOC 2	SOC 2 + NIST 800-53 FedRAMP Ready (Moderate)
Automatic checks against 600+ best practices	Yes	Yes	Yes
Network and infrastructure monitoring	Yes	Yes	Yes
Least privilege model for all staff	Yes	Yes	Yes
Logging and retention of all internal communications	Yes	Yes	Yes
Compliance tracking against 35+ frameworks	Yes	Yes	Yes
Background checks for CloudCheckr staff	Yes	Yes	Yes
