# CloudCheckr

CloudCheckr CMx Federal

Securely govern your cloud infrastructure with the only cloud management platform to achieve FedRAMP Ready status and availability on the FedRAMP Marketplace

FedRAMP is a government-wide compliance program that provides a standardized approach to security assessment, authorization, and monitoring for cloud services. With CloudCheckr CMx Federal, agencies gain total visibility of their resource utilization, security configuration, compliance, and cloud spend—in one application. Our cloud cost management solutions, designed with IT finance teams in mind, deliver automated invoicing, billing management, chargebacks, and budget recommendations across complex organizations.
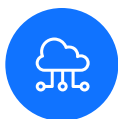

Streamlines the governance of complex cloud infrastructures
- Comprehensive visibility into cloud resources, usage, and costs
- Automated invoicing, billing, and chargebacks
- Over 600 security and compliance best practice checks, with button-click fixes

Ensures the highest standards for security and compliance
- Platform adheres to NIST 800-53; awarded FedRAMP Ready status
- Advanced high availability, reliability, and disaster recovery standards
- AI threat detection analysis
- Scanned daily for vulnerabilities

Empowers public sector customers to get results immediately
- Eases the Authority to Operate (ATO) and other agency certification processes for public sector customers
- Connects to cloud resources and begins monitoring activity in days—not weeks or months
- Automated recommendations for budget management

Feature Comparison

Refer to this feature matrix to determine which CloudCheckr cloud management platform aligns with your requirements.

Features	CMx	CMx High Security	CMx Federal
Certifications	SOC 2	SOC 2	SOC 2 + NIST 800-53 FedRAMP Ready (Moderate)
